

Dr. Rajnik Raab selected 2015 President of the NJ Neurosurgical Society

[Dr. Rajnik Raab](#) has been named the 2015 President of the New Jersey Neurosurgical Society. Dr. Raab is a board-certified neurological surgeon at OASIS Orthopedic and Spine Integrated Services specializing in the treatment of back and neck pain, including the use of spine surgery. The New Jersey Neurosurgical Society's Mission is to support the neurosurgeons of New Jersey in educational endeavors, representing their interests with regard to socio-economic issues both on a local and national level, providing a forum for collegial relationships among members and providing information to patients who require neurosurgical evaluation and intervention. The Society's fundamental goal is to make certain that New Jersey residents have access to the highest level of neurosurgical care available anywhere.
